C'è un'altra sessione disponibile martedì 19

## Giovedì 21 Settembre 2017

### Cool Tools to convert to new refrigerants (choose on of the 2 sessions)

This webinar is dedicated to HVAC-R professionals looking for more information and tips for new installations and retrofits such as: refrigerant glide and impacts on system design and component selection, retrofit guideline, product selection and standard calculations.

h. 8.00 – 9.00 CEST

> [clicca qui per registrarti](#)

h. 16.00 – 17.00 CEST

> [clicca qui per registrarti](#)

## Venerdì 22 Settembre 2017

### Cooling delivers on all Sustainable Development Goals

This webinar will give a macro-perspective on the importance of the refrigerant transition. Sustainable cooling – with energy-efficient equipment and climate-friendly refrigerants is a key to keep people, products and the planet cool

h. 14.00 – 15.00 CEST
